Importance: High

Please review the attached accuracy - one on ABS and the other on Oxitec.
They look generally fine to me but maybe some edits are needed.

Need any edits to OCSPP IO by 1 pm today.

Heads up that SEPW budget hearing QFRs are in. There are about 60 total and only 2.5 for OCSPP. **OCIR seeks OCSPP's quick-turnaround help in reviewing draft responses to the SEPW QFRs by 10 am this Thurs, June 3.**

OCSPP's questions are attached; below is a quick Table of Contents. We'll defer to you and the OCSPP team on the best way to proceed, recognizing that there are ongoing QFR processes underway for a number of hearings.

I drafted initial responses using existing sources including Michal's QFRs (for PFAS and Allied) and recent letters (for Oxitec). The guidance we received is to be brief yet responsive.

Please let me know if you have any questions and thanks for your help on this quick turnaround request. Best,
Sven
